## GET CREATIVE!

---

Consider what unique elements we could include in the space and share your ideas with us below, so that we can create a place our community wants to visit again and again! Think about interactive play, interesting landscaping ideas, accessible children's adventure playground and fitness circuits, anything you think could make this area special.

We will also be commissioning public art on the facade of Five Dock Leisure Centre ([see masterplan for details](#)). All ideas welcome!

Posted by nigel withers | a month ago

Is number 22 a shared path, and can it be made to link into Coonardoo Close? At present, there is no easy way to cycle or scooter in from that area. I always find it bizarre that a project focused on exercise and outdoor activity should think...
