

Paper Chain Caterpillar

What do I need?

- 2 or 3 coloured papers
- Scissors
- Sticky tape or glue
- Wiggly eyes (optional) or use black marker
- Black marker
- Pencil
- Ruler

1. Cut about 15 strips of construction paper 2.5cm wide and 25cm long.
2. Make your first strip of paper into a ring and tape or glue it together.
3. Slide your next strip of construction paper through the ring and tape or glue it into a ring.
4. Repeat the process until you are happy with the length of the chain.
5. Cut one last strip of construction paper 5cm wide and 25cm long -- this will be the head (it needs to be a bit wider, so you can fit the face on).
6. Slide the head strip through the last ring on your paper chain and make it into a ring.

For the antennae:

7. Cut two 0.5cm by 12cm pieces of paper.
8. Wrap each around a pencil to make it curly.
9. Glue the two antennae onto the top of the head.

For the face:

10. Glue wiggly eyes onto the front of the head OR draw two eyes onto the front of the head with a marker.
11. Draw a mouth onto the front of the head with a marker.
