

# WASTE & RECYCLING MANAGEMENT GUIDE

Council understands that apartment-living poses a unique set of challenges when it comes to managing waste effectively. As part of an ongoing effort to improve waste and recycling behaviour, Council has created resources to assist building managers and residents who live in apartment buildings. Below are some of the resources and services that apartments can access.

## Educational material and resources

- Bin storage area signage, bin stickers and chute stickers
- Waste and recycling education assessment:
  - bin inspections
  - recycling bags for transporting recyclables
  - pledge and feedback programs
- Monthly online Q&A sessions
- Online building managers and strata committee network.

## Additional recycling services

- **RecycleSmart:** offers free monthly collections of e-waste, soft plastics, textiles, and problem waste such as polystyrene, batteries and aluminium coffee capsules
- **Compost Capers:** Council is giving away 225L compost bins (while stocks last) to help residents in unit blocks set up shared composting
- **Strata by-law templates:** provides guidance on how to effectively implement and enforce waste management
- **Waste Info app:** download our new smartphone app to access you bulk household collection date and search the A-Z guide for other recycling and disposal options.
